- Aluminum
- Gold
- Platinum & Platinum Alloys
- Copper Alloys
- OFC and OFHC
- Magnet Wire

Shielding: (Braid, Spiral, Tape Wrapped)

- Silver Plated Copper
- Tinned Copper
- Bare Copper
- Nickel Plated Copper
- Aluminum
- Gold
- Platinum & Platinum Alloys
- Copper Alloys
- OFC and OFHC
- Stainless Steel
- Alum/Mylar Tape
- Kapton Tape

Insulating materials:

- Silicone Rubber (SIL)
- FEP
- PFA
- Tefzel (ETFE)
- Kynar (PVDF)
- PTFE/EPTFE Tape Wrapped
- PEEK
- Polyimide
- Thermo Plastic Rubber (TPR)
- Thermo Plastic Elastomer (TPE)
- Polyurethane (PU)
- Polypropylene (PP)
- Polyethylene (PE)
- Nylon
- PVC
- EPDM
- XLPE

***FDA and medical grades are also available upon request.*

Custom Configurations:

- Round
- Flat / Ribbon / Zip
- Oval
- Profile extrusions
- Cable Tube Extrusions
- Co-extruded

Coast Wire & Plastic Tech. Inc. established in 1965, manufactures custom Wires and Cables in a 60,000 sq. ft. manufacturing complex in Carson, CA. Quality and customer satisfaction are our highest priorities. Our proven ISO 9001:2008 systems and testing capabilities are your assurance of receiving products that meet or exceed industry standards. As we constantly deal with unique applications and requirements, we understand the need for cost effective prototypes. Our engineers are always available to discuss and assist you in the design of your product. We consider it an honor and pleasure to assist our customers in any way we can to make their concepts production realities.
